

## Agenda

### 1800 – 1815: Introductions & Greetings

### 1815 – 1830: INSPIRE Update

### 1830 – 1900: Measuring and Improving Team Performance in Simulation: Emerging Trends

- Michael Rosen

### 1900 – 1915: Development of a Standardized Process for INSPIRE Procedure Kits - Update

- Marjorie Lee White & Taylor Sawyer

### 1915 – 1945: ALERT Progress Reports

- Mackinnon, R & Kennedy, C: FACTS Pediatric Trauma.
- Chang, T & MacKinnon, R: The use of Leaderboards & Competition to improve self-initiated CPR training.
- Weiner, D: Handheld High Fidelity Simulation Training For IV Catheterization
- Moro-Sutherland, D: Use of Simulation in Limited Resource Countries: How can it be done?
- Pusic, M & Boutis, K: Learning Retention and the Timing of Refresher Education After The Deliberate Practice of Radiograph Interpretation
- Brown, L: The effect of summative feedback on the accuracy of provider perceptions and the quality of CPR during a simulated pediatric cardiac arrest.

### 1945 – 2000: Break

### 2000 – 2025: ALERT New Presentations

- Ades, A: NRP eSimulation
- Lyons, S: Measurement of Stress Levels in Simulation and the Impact of Stress on Performance: Announced Versus Unannounced Simulation Based Training – A Pilot Study
- Stavroudis, T: Development of a Pediatric Simulation Curriculum and Database Collaborative
- Sigalet, E: Script Assisted Feedback to Educate (SAFE Tool)
- Walsh, C: Improving the quality of team training and performance during interprofessional in situ mock code blue simulations: A randomized controlled mixed-methods study

### 2025 – 2120: Project Breakout Session

### 2120 – 2130: PediSTARS Update

- Rakshay Shetty

### 2130 – 2150: Manuscript Oversight Committee

- Auerbach, M: ImPACTS Project
- Kessler, D: LP Project
- Cheng, A: CPR Cares Project

### 2150 – 2200: Wrap Up
